TOWNSHIP OF NORTH BERGEN  
COUNTY OF HUDSON, N.J.

AN ORDINANCE TO AMEND AN ORDINANCE ENTITLED, "AN ORDINANCE TO REGULATE AND CONTROL THE CONSTRUCTION, ERECTION, ALTERATION, REPAIR, RAISING, REMOVAL OR DEMOLITION OF ANY BUILDING OR STRUCTURE OR ANY PART OF EITHER, TO REGULATE AND CONTROL PUBLIC AND OTHER AUTOMOBILE GARAGES AND THE REMOVAL AND CUTTING AWAY OF ANY PORTION OF ANY IMPROVED STREET SURFACE IN THE TOWNSHIP OF NORTH BERGEN IN THE COUNTY OF HUDSON" ADOPTED AUGUST 23, 1923, AND THEREIN ENTITLED "THE BUILDING CODE OF THE TOWNSHIP OF NORTH BERGEN IN THE COUNTY OF HUDSON".

\* \* \* \* \*

The Board of Commissioners of the Township of North Bergen in the County of Hudson do ordain:

Section 1. That Section 1-C of an ordinance entitled as above is hereby amended as follows:

(a) That the title of Section 1-C be changed by emendating therefrom the words in said title reading "YARDS AND COURTS".

(b) That the subtitle "REAR YARDS" shall be amended so as to read as follows:

"1-D REAR YARDS"

(c) That paragraph C of Section 1-D "REAR YARDS" as herein amended be amended so as to read as follows:

A rear yard is required in the rear of all residence buildings. The rear yard shall be at least twelve feet behind the ground story used for residence purposes, which ground story is not to be deemed a basement containing a garage, heating unit, storage, utility or playroom, and at least sixteen feet deep behind the second story and at least twenty feet deep behind the third story. For multi-family dwellings, defined in R.S. 55:1-24, the rear yard dimensions shall conform to the provisions of subtitle 1 of Title 55 of the Revised Statutes, commonly referred to as the Tenement House Code unless more rigid requirements are required by the local zoning ordinance. Where a lot is more than one hundred feet deep, as shown on the tax map dated October 1st, 1954, one third of the additional depth shall be added to the required rear yard. Where a lot is less than one hundred feet deep, as shown on the above described tax map, one half of the difference in depth shall be subtracted from the required rear yard, provided that no part of a rear yard shall be less than ten feet in depth. Detached structures not over seventeen feet in height with peak roof or fourteen feet in height with flat roof for permitted accessory uses, including garages, occupying in aggregate not over fifteen (15%) percent of the area of the lot, may be erected within the required yard area. Such structures shall be everywhere distant at least eighteen inches from each side and rear lot line including roof overhang or rain gutters. Roof drainage from such structures and yards shall be carried to a storm sewer, street gutter, or suitable dry wall.

(a) A sideyard is a required open unoccupied space within a lot between a side lot line and the parts of the building nearest to such side lot line. Such a side yard shall extend through from the street line or the front yard to the rear yard or another street. For any industrial, business or tenement house or public building a sideyard is not required, but it may be used in place of a court as hereinafter set forth.

(b) The width of a sideyard, or of a court, or a combined sideyard and court at any level is the mean distance between the side lot line or its vertical plane projection and the parts of the building nearest said side line if parallel to the side line or of the projection to the said line of a portion of such wall running at an angle to such sideline. For the purpose of this section, the term "mean distance" shall be defined as the quotient obtained by dividing the sum of the various lengths of the wall nearest such sideyard into the sum of the products obtained by multiplying each length of such wall by its corresponding distance from the sideyard.

(c) A sideyard is required along each side of each lot for one and two family dwellings and semi-detached (one common wall) dwellings. The mean width of both sideyards shall be at least eight feet at the ground story, twelve feet at the second story and sixteen feet at the third story. For each foot that a lot is less than fifty feet wide, as shown on the Tax Map dated October 1st, 1954, six inches shall be deducted from the aggregate width of both required sideyards at any level. Neither sideyard shall be narrower than one half of the above aggregate width of both sideyards, nor less than three feet wide in any case.

(d) No window openings shall be designed or installed in any sideyard wall which is closer than three feet from its side line, nor shall a doorway be installed in such wall which is closer than four feet from its side line. Projections into the sideyard shall be in accordance with Section 12 of this Building Code.

Section 3. All ordinances and parts of ordinances inconsistent herewith are hereby repealed as to the inconsistent portions thereof.

Section 4. This ordinance shall take effect upon adoption and publication, as required by law.

Introduced: November 7th, 1962.

Published: November 10th, 1962, & November 24th, 1962.

Adopted: November 21st, 1962.
